UltraLine UC VoiceMail

Quick Start Guide

UltraLine Unified Connection

The High Quality Communications
Experience For Busy Professionals.

Using The Voicemail System

The voicemail system is menu driven. Listen to the voice prompts and then press the keys on your business media phone to select which option you would like.

Accessing Voicemail

The first time you access voicemail you will be asked to set up your account. Dial *318 from your business media phone, or the Voicemail Access number for your area (listed below) from an external phone, and enter the default PIN of 1234.

You will then be prompted to:

1. Change your PIN.
2. Record your name.
3. Record a greeting to be played to callers.

When you have unheard voice messages waiting, your telephone's message waiting indicator may display a red light if applicable, or you will hear a stutter dial tone when you pick up the receiver.

From Your Business Media Phone:

Press the messages button or dial *318. Enter your voicemail password. If you have new messages, the messages will be identified. After hearing any new messages, you will be presented with the Voicemail Main Menu.

From An External Phone:

From an external phone, dial the Voicemail Access number for your area.

- When prompted, enter your 10 digit number followed by #.
- When prompted, enter your voicemail password, then #.
- If you have new messages, the messages will be identified.
- After hearing any new messages, you will be presented with the Voicemail Main Menu.

Record Your Greeting

- Access your voicemail box using the instructions under Accessing Voicemail.
- To set up a personal greeting press 1.
- To set up a system generated greeting or to change the recording of your name, press 3.
- To change the greeting that callers hear when you're busy, press 5.
- If you don't record a personal greeting, a generic greeting will be played.

Replying To A Message – Dialing The Originator

- While listening to a message, you can call the person back by pressing 4 and selecting option 1.
- This capability will not work if the voicemail system was not able to identify the Caller ID information when the original voicemail was received or if your phone is configured with call restrictions which prevent you from calling the originator's number.

Changing Your Voicemail Password

- Access your voicemail box using the instructions under Accessing Voicemail.
- From the Main Menu, press 4 to change your settings.
- Press 3 for security options.
- Press 1 to change the PIN.
